Timothy 5 lbs.		

For High Lime Soils

SCOTTS Alfalfa Mixture with Ladino	\$35.50 cwt.	.....
Alfalfa 6 lbs., Red Clover 4 lbs.,		
Timothy 5 lbs., Ladino ½ lb.		

## Pasture Mixtures

### SCOTTS Spring Pasture Mixture

\$35.00 cwt.

A top quality, balanced, widely used mixture of legumes and grasses containing Ladino Clover for establishing highly productive permanent pastures. Contains Alfalfa, Red Clover, Alsike, Ladino, Kentucky Bluegrass, Ky. 31 Fescue, Timothy, Orchard Grass and Ryegrass. Sow 25 lbs. per acre.

### SCOTTS Heavy Duty Pasture Mix

\$43.00 cwt.

Contains Alfalfa, Ladino, Alsike, Birdsfoot Trefoil, Brome Grass, Ky. 31 Fescue, Orchard Grass, Perennial Ryegrass and Timothy. Sow 25-30 lbs. per acre.

SCOTTS Crop-Land Mix is suggested where the field is to be left in pasture for at least 5 years and where heavy grazing is desired. Apply fertilizer and lime and follow recommended seeding methods.

### SCOTTS Meadow & Pasture Mixture

\$27.00 cwt.

An ideal mixture for average type of soil where hay may be needed for a year or two. Fifty percent legumes by weight. Contains Alsike, Red Clover, Sweet Clover, Lespedeza, Ryegrass, Ky. 31 Fescue, Timothy and Orchard Grass. Sow 20 lbs. per acre.

### SCOTTS Green Manure Mixture

\$16.50 bu.

A sure catch legume mixture for soil building and plow under. May also be used for pasture or hay. Contains Mammoth, Sweet Clover and Alfalfa. Sow 10-12 lbs. per acre.

(PREMIUM QUALITY SEEDS ARE USED IN ALL OF SCOTTS MEADOW & PASTURE MIXTURES)

SCOTTS 72	8.00 bu. 10.00 bu.		
*SCOTTS Medium Blend	10.00 bu.		

### MEDIUM LATE HYBRIDS

SCOTTS 75	\$8.00 bu. \$10.00 bu.		
Iowa 4059	7.00 bu. 9.00 bu.		
Ohio C 54	8.00 bu. 10.00 bu.		
SCOTTS 99	8.00 bu. 10.00 bu.		
U. S. 13	7.00 bu. 9.00 bu.		
*SCOTTS Late Blend	10.00 bu.		

SCOTTS 11—Slightly earlier than Ohio M-15. Large ears for an early hybrid. Has out-yielded Ohio M-15. Sound dark yellow ears. Suited to short season or late planting.

SCOTTS 33—Maturity of K Hybrids. A real producer with disease and smut resistance. Easy husking, nice fodder, not as tall as K-24. Will pick clean & crib early.

SCOTTS 66—One of the best medium early maturing hybrids in the corn belt. Disease resistant, husks easily, strong roots, high yields on a wide variety of soils.

SCOTTS 72—A medium maturing hybrid that suits many producers. Is high yielding, clean picking. Sound ears that dry fast. Good resistance to corn borer and disease.

SCOTTS 75—Slightly earlier and not quite as tall as most of the C Hybrids, blight resistant, sturdy stalks, large dark yellow ears, bred for handy size and high yields.

SCOTTS 99—Maturity of U. S. 13 and bred for more corn borer resistance and higher yield. Dark green color. Not quite as tall as U. S. 13. Good sized, sound ears.

\*SCOTTS MEDIUM BLEND AND LATE BLEND ARE UNIFORM BLENDS OF THREE HYBRIDS IN REGULAR FLAT KERNELS OF THE RESPECTIVE MATURITY GROUPS.

A NUMBER OF CUSTOMERS MIX SEVERAL HYBRIDS TOGETHER OR PUT TWO DIFFERENT HYBRIDS IN THE PLANTER BOXES. THIS HELPS INSURE POLLINATION, REDUCES DROUGHT DAMAGE, GIVES SLIGHT VARIATION IN DRYING, MATURITY, ETC., MAKES MORE CERTAIN A CORN CROP UNDER ADVERSE CONDITIONS AND FREQUENTLY INCREASES YIELDS. THIS IS A COMMON PRACTICE IN PARTS OF THE CORN BELT.

### OPEN POLLINATED CORN

Blue Clarage	\$7.00 bu.		
Woodburn	7.00 bu.		

### HYBRID SWEET CORN

Golden Cross Bantam	\$ .50 lb.		
Ohio Gold No. 1	.50 lb.

Always a *Better Yield* with

#### TRY THESE FOR SHORT-SEASON PLANTING

**Scott's 11** One of the highest yielding early hybrids with good ear and stalk quality. Ears are medium size, husk easily and dry out quickly for early cribbing. 90-95 DAYS MATURITY.

**Scott's 33** A well-liked handy size hybrid. Has outyielded all hybrids in its class. Shows good disease resistance . . . is a clean picker. 100 DAYS MATURITY.

**Scott's 66** A vigorous grower that produces well under many conditions. Stalks are strong with good disease resistance. Medium ears, good for field picking or hand husking. 105 DAYS MATURITY.

# Top Producing Full-Season Hybrids

**Scott's**  
**99**  
T. M. REG.

**120 DAYS**

A fast, vigorous grower developing good roots and sturdy stalks—exceptional resistance to disease and drought. Ears are large and deep kerneled with clean picking and fast drying characteristics. One of the best all-around hybrids yielding high tonnage silage and good quality crib corn.

*You'll come back for more Scott's 99.*

**Scott's**  
**75**  
T. M. REG.

**115 DAYS**

A proven high yielder that readily adapts to a wide variety of soil and climate conditions. Medium tall, leafy stalks that resist blight and wind damage. Handy size, clean picking ears well adapted to mechanical harvesting. An excellent crib corn that produces good ensilage as well.

*For a sure yield — plant Scott's 75.*

**Scott's**  
**72**  
T. M. REG.

**110 DAYS**

Popular as the main corn crop on many farms because it can usually be followed with wheat. Stalks are medium tall and have better resistance to rot and blight than most hybrids in this class. An excellent crib corn with showy, clean picking ears that carry deep, dark yellow kernels.

*Scott's 72 will give you lots of good corn.*

# Scott Farm Seed Company

## Fifty Cents An Acre!

That's about the difference in first cost between the best in farm seeds and inferior kinds. But you are buying more than seed -- it is the crop that will be produced on your land during the coming season or even for the next several years. Few can afford to gamble the production of their land, time and labor for the price of half a pound of coffee.

If first cost bothers you there is a way to prove the real value of Scotts Seed. Sow enough less of it per acre to offset any difference in seed cost. You'll get as good or a better stand, have fewer weeds and a healthier, more vigorous growing crop.

Start with good seed. Big, plump sound seed, high germinating and well cleaned, so the weeds, chaff and dirt are out of it. Scotts Seeds are higher in purity, germination and vitality and lower in weed content than are generally offered elsewhere. They increase your chances for crops that are better than were last year's.

In buying livestock you don't start with the runtiest pig or calf offered, one that looks like a poor producer or is under a blanket on a sight unseen basis. No--you are interested in something good, either in purebred or high grade livestock. Something that at least has a chance to make you some money. When seed is the foundation of all your farm income, why be satisfied with, or think that, anything less than the best has a chance to give top production.

Good seed, the Scott kind, is your best crop insurance. You need not pay more per acre than for inferior seed, and at the same time you aren't paying for something you don't want--weeds, immature weak seed, chaff and such. Use fully matured, healthy plump clean seed, backed by more than 80 years of experience and many satisfied year-after-year customers.

Use Scotts this season; order now for prompt or later shipment to suit your convenience, but order--that's the important thing.

Yours for cleaner fields,

SCOTT FARM SEED COMPANY.
